About

A dedicated and passionate web developer with a background in accounting, based in New York. I highly value a positive environment, and love keeping up to date with the new technologies. Willing to work both individually and as a team, to develop functional and user friendly tools for our society.

Technical Skill Set

HTML, CSS, Bootstrap, JavaScript, jQuery, DOM, Ruby, Ruby on Rails, SQL, PostgreSQL, RESTful API, Ajax, Axios, React.js, JSX, Node.js, NPM, EJS, Express.js, Cross-browser testing, Debugging, Mobile web design, Agile, GitHub.

Languages

English (intermediate-speaker), Spanish (native-speaker).

Projects

Credit Report React front-end with Node/Express back-end financial technology application, that calculates the six credit factors and credit score based on user's financial information contained in my own API.

Can I Eat This? React front-end and Node/Express back-end application, with built in OCR. Save allergen preferences, take a photo of any food product barcode, and the app returns if the product is safe for you to eat.

Connect Four The classic board game Connect Four, developed with the three core technologies of World Wide Web content production: HTML, CSS, and JavaScript.

Experience

Software Tester, uTest

- Executed test cases.
- Perform functional testing for web (cross-browser testing), desktop applications in a Mac environment, and mobile applications using an iPhone.
- Wrote a detailed bug report.

Remote

2014-2017

Accountant Assistant, Office of Fiscal Services, Dept. of Finance, UPR

- Advised employees on student employment policies and hiring procedures.
- Facilitated training to employees on how to record payroll entries through the database.
- Processed direct-deposit applications for student's financial aid.

San Juan, PR
