About

A dedicated and passionate web developer with a background in accounting, based in New York. I highly value a positive environment, and love keeping up to date with the new technologies. Willing to work both individually and as a team, to develop functional and user friendly tools for our society.

Technical Toolbox

HTML, CSS, JavaScript, jQuery, Node.js, NPM modules, Express.js, React, Ruby, Ruby on Rails, PostgreSQL, RESTful API, AJAX, JSON, and GitHub.

Skills

Problem solver
Detail-oriented

Languages

English (Intermediate)
Spanish (Native)

Projects

Credit Report React front-end with Node/Express back-end financial technology application, that calculates the six credit factors and credit score based on user's financial information contained in my own API.

Can I Eat This? React front-end with Node/Express back-end application with built in OCR. Save allergen preferences, take a photo of any food product barcode, and app returns if the product is safe for you to eat.

Connect Four The classic board game Connect Four, developed using HTML, CSS, and JavaScript.

Work Experience

Software Tester

uTest

– Executed test cases, perform functional testing, and wrote a detailed bug report.
