About

A dedicated and passionate web developer with a background in accounting, based in New York. I highly value a positive environment, and love keeping up to date with the new technologies. Willing to work both individually and as a team, to develop functional and user friendly tools for our society.

Computer languages

HTML, CSS, JavaScript, Ruby, SQL

Languages

English (intermediate), Spanish (native)

Tools

Git, RESTful API, AJAX

Libraries

jQuery, React.js, AngularJS

Frameworks

Bootstrap, Node.js (NPM)/Express.js, Ruby on Rails

Databases

PostgreSQL

Projects

Credit Report React front-end with Node/Express back-end financial technology application, that calculates the six credit factors and credit score based on user's financial information contained in my own API.

Can I Eat This? React front-end and Node/Express back-end application, with built in OCR. Save allergen preferences, take a photo of any food product barcode, and the app returns if the product is safe for you to eat.

Connect Four The classic board game Connect Four, developed with the three core technologies of World Wide Web content production: HTML, CSS, and JavaScript.

Experience

Software Tester, uTest

- Executed test cases. Remote 2014-2017
- Perform functional testing for web, desktop applications in a Mac environment, and iPhone applications.
- Wrote a detailed bug report.

Accountant Assistant, Office of Fiscal Services, Dept. of Finance, UPR

San Juan, PR

- Advised employees on student employment policies and hiring procedures. 2008-2015
